P A I N T

This is as important to
Your Mills and Tenements
As Any Machine or Supply

Advertised in this Directory

Out of our 25 years' experience we have compounded the two paints that are best adapted to textile mill uses.

For INSIDE Use

Rice's Mill White

(Not a Cold Water Paint)

The Paint That Brims Over With Sunlight"

This glossy paint's reflective power increases the light 19% to 36%. Yet it contains no varnish, is elastic, and neither flakes nor scales. Two coats will do more effective work than three of any other paint—and it will remain white longer.

Shall we send you a sample board showing the tile-like lustrous surface produced by Rice's Mill White?

For OUTSIDE Use

Rice's Reinforced Paint

*"The Outside Paint
 That Neither Cracks Nor Peels"*

You should use this outside paint because the scientifically correct proportions of lead and zinc (85%) and a void-filling pigment makes Rice's Reinforced Paint a non-cracking, non-peeling paint. In addition to this the fourth pigment (Asbestine) binds the other pigments closely together—strengthening and uniting them as hair unites plaster or as rods reinforce concrete. All this means a better looking and more durable paint.

Shall we send you a booklet and color card?

Peculiar to Parks

HUMIDIFYING

If you of the United States or Canada have a problem of humidifying then you need us—or rather you need the Turbo Humidifier.

The Turbo was invented by a mill man with no thought other than to use it in his own mill. Its success—being based on sound fundamental laws—was assured.

Guaranteed humidity was something we were responsible for and Turbofied and satisfied have become synonymous in textile parlance.

Catalogue for the asking.

MILL PIPING

One of the reasons we are doing humidifying is that mill piping has been our business for forty-one years.

The two went very naturally together.

If your problem of mill piping is in our baliwick we would like to be of service.

When, however, local conditions preclude, we recognize them and tell you so, frankly. For the present we are able to give the best service in New England, New York State and Virginia and such points from Norfolk as afford good freight service.

HOT WATER HEATING

Hot water, mechanically circulated, is the cheapest way to warm textile mills, under any condition.

This class of work, however, is a specialty; requiring a special experience which we have to offer.

Rule of thumb and guess work must be eliminated to give satisfactory results.

Heating and humidifying problems are very closely related. By looking at the whole problem from your standpoint we can save you money.

Our field in this line the United States and Canada.

MILL SUPPLIES

Where we can properly serve, our stock of pipe, fittings, valves and such is offered you.

The nature of our business precludes the use of competition goods. We keep good material and lots of it.

Where service in the way of prompt shipments, right prices and good goods are desired, we would welcome a trial.

This applies principally to New England and New York State.

Midgley's Improved Hand Stripping Cards

NUMBER 2

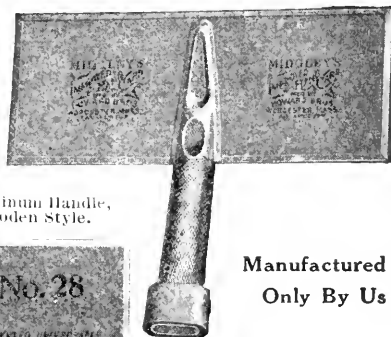

Detachable Aluminum Handle

**Patented
Universally**

NUMBER 1

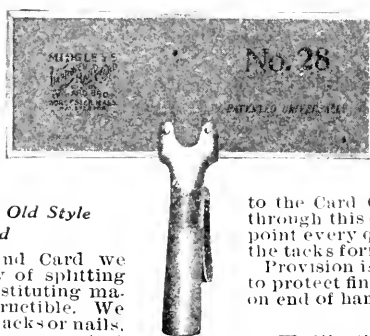

Attached Pressed Steel Handle

**Manufactured
Only By Us**

NUMBER 3

Attached Wood and Aluminum Handle,
Exact Shape of Old Wooden Style.

Advantages Over the Old Style Wooden Card

In our improved Hand Card we eliminate the possibility of splitting board or handle by substituting material practically indestructible. We use no leather bindings, tacks or nails. Our Improved Steel Clamps protect the edges of the Card as well as clamp them to the board, and present a smooth face

to the Card Clothing. We punch teeth through this clamp, giving you a holding point every quarter of an inch in place of the tacks formerly used.

Provision is made for attaching of strap to protect fingers; leather can be wound on end of handle if desired.

Mill Men Say:

"We like the new cards very well, and you may send them on all our future orders."

years of study and experience

*have made us
experts in the
manufacture of
POWER
TRANSMISSION
MACHINERY*

FOR more than a half century the JONES & LAUGHLIN STEEL COMPANY has been making a specialty of machinery for transmitting power, and in that time has grown to be a leading manufacturer of this product, developing a corps of engineers and workmen not equalled in this country for knowledge and skill.

We have very large and fully equipped modern foundries and machine shops from which we turn out each year equipment for some of the most important manufacturing establishments in the United States. Our work includes installation as well as making the machinery for any sort of drive—belt, gear or rope. There is a careful finish, an accuracy and a strength to our product difficult to find elsewhere.

The steel which goes into our equipment we make in our own works, where every process from mining the iron ore to making the steel is conducted under the personal supervision of members of our firm, thus insuring a quality of material not obtainable otherwise.

PITTSBURGH

STEPHENSON

Bar Belt Dressing Prevents

Waste of Power and Fuel

Because it stops the belt from slipping and causes it to transmit all the Power without being made so tight as to cause unnecessary friction.

This Registered Trademark
Is Your Protection

It appears on each stick of Genuine Stephenson Bar Belt Dressing—the dressing that has held to its uniform quality for 23 years.

This belt dressing surpasses liquid preparations, for there is absolutely no waste in applying it to the belt, and it is put up in sticks or solid form, so that it can be carried about in the tool-box. For these reasons—

**1 Pound Lasts as Long as 2 Pounds of
Any Liquid or Semi-Liquid Dressing.**

There are two brands, Red Label for leather belts, Green Label for rubber, canvas, or balata belts.

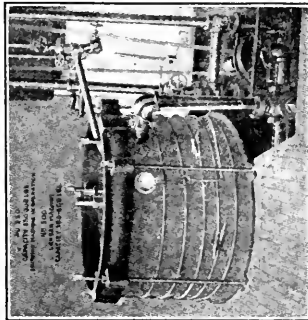

Write us for Price List and Free 1-2 lb. Sample.

The Reece Hand-Hole Button-Hole MACHINE

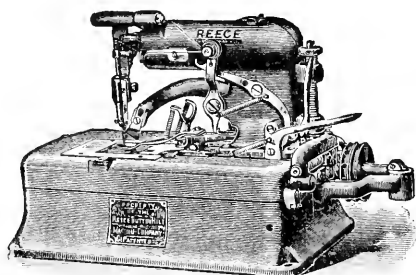

**For Stitching and Cutting
Button Holes in Sweaters**

has twice the capacity of any other button-hole machine. It is simple, speedy, easily operated, and makes a perfect one or two cord button hole that is stronger and better looking than a hand made one. The machine can be used on all sweater work, with or without canvas or other staying qualities.

The Reece Button-Hole Machine

**For Cutting and Stitching Straight Double
Barred Button-Holes in Knit Goods**

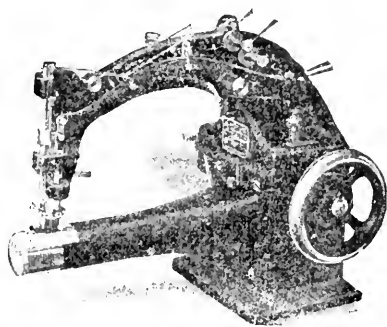

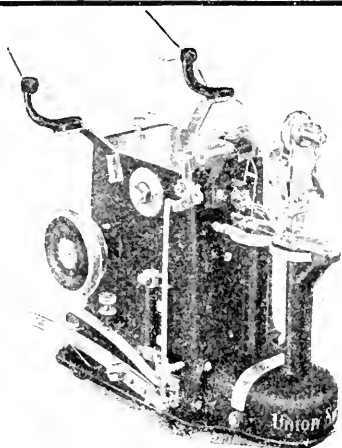

makes button-holes from $\frac{1}{8}$ to 1 inch long. Being automatic, its capacity, even with unskilled labor, is double that of any other machine. The superior quality of the work is due to the elastic stitch—no cutting or pulling of the thread is necessary—when taken from the machine the button-hole is complete. Samples of work and terms on application.

Full Fashioned Hosiery Machines

MANUFACTURED BY

David Richter, Inc., Chemnitz, Saxony

Built in all gauges, any number of sections, and with any attachments desired.

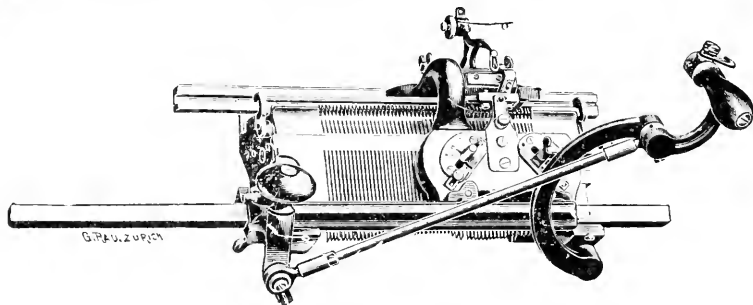

Best constructed, easiest running and most productive machines on the market.

LACE MACHINES, system "Gothrough," **NETTING MACHINES**, system "Double Locker," **LACE CURTAIN MACHINES**.

Dubied Knitting Machines

BUILT BY

Edward Dubied & Co., Couvet, Switzerland

The most perfect knitting machines that skill and experience can produce. Designed for the highest possible production and the greatest endurance.

Full automatic, semi-automatic and hand machines, links and links (pearl stitch), flat and tubular automatic widening, jacquard, shaker, accordion bias neckties, etc.

Machines can be seen in operation.

Complete stock of supplies carried in New York. All parts interchangeable.

Kuechenmeister winders, Standard overseamers, whip-stitch overseamers with automatic trimming attachment.

FULL FASHIONED HOSIERY MACHINES

BUILT BY Schubert & Salzer Maschinenfabrik, CHEMNITZ, GERMANY
and their two Branch Works:

H. ALBAN LUDWIG and THEODOR LIEBERKNECHT

Three distinct types, each one embodying various special features and all practical attachments known in the manufacture of Full Fashioned Hosiery. Built in all gauges from 14 to 34 needles to the inch, from 12 to 24 sections. References: All the leading manufacturers of full fashioned hosiery in this country.

Full particulars and prices will be furnished on application to

OTTO WALTHER, 507 Bourse, Philadelphia

Imported Knitting Machines of Quality

SPECIALTIES

Karl Lieberknecht, Oberlungwitz, Saxony

FULL FASHIONED MACHINES, "System Cotton" for plain and ribbed Hosiery, Underwear, Gloves and Neckties.

RIB MACHINES, high speed, for Rib Tops, Neckties, Hosiery in plain, striped and accordion effects.

WARP MACHINES (150 COURSES PER MINUTE) for Tricot Fabrics.

Otto Seifert, Burgstaedt, Saxony

WARP MACHINES, for Elastic Hat Bands, Mourning Bands, Shawls and Scarfs.

JACQUARD WARP MACHINES, for Veilings, Laces, Shawls, Insertions, etc.

Perkins' Profit Promoters

The Textile Fabric Tester

The only machine that gives the bursting strength in pounds per sq. in. by a simple operation.

The Jumbo Mullen Tester

Is extensively used by hosiery and underwear manufacturers. It is equally good for testing textile fabrics of all kinds.

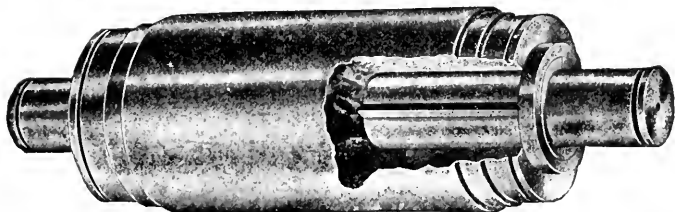

Here are Proofs of Quality

1. The U. S. Government adopted Mullen Testers as the standard for testing paper.
2. The R. R. Freight Classification Committees adopted Mullen Testers as their standard. Every fibre case shipped bears a stamp to show that it will stand "a resistance of ... pounds to the sq. in. [Mullen test]."

Ask for descriptive matter and names of

TEXTILE MILLS

using the Jumbo Mullen Tester

Perkins Guaranteed Calendar Rolls

For Finishing Textile Goods, Bleaching and Dyeing Cloth, etc.,

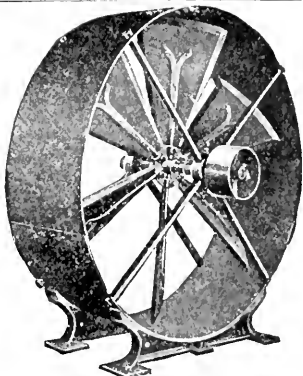

are filled by a patented mechanical process, which insures perfect uniformity in density, a feature which is impossible with the ordinary hand made rolls. The line includes: Paper Rolls, Husk Rolls, Cotton Rolls and Combination Cotton and Husk Rolls. All are fitted with Perkins' Patented Spline, which prevents slipping or turning around the shaft.

For All Mill Needs—Get A Perkins Ventilating Fan

It is Superior Because:

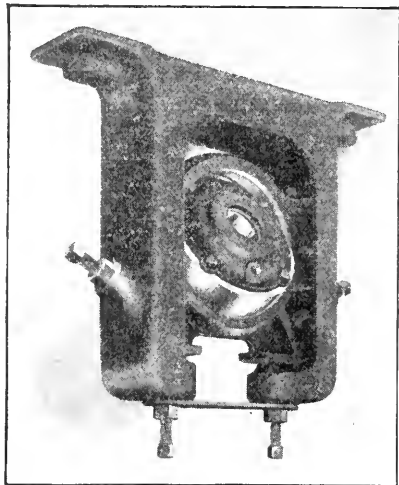

- (1) The frames, drums, arms, shafts, etc., are STEEL—not iron.
- (2) The blades are adjustable—can be set to any angle—to blow in or out.
- (3) It can be run at high speed—and will run longer without oiling than any other fan on the market—on account of the *self-oiling* journal boxes.

Power Transmission Systems built and installed for driving any fan in any position.

B. F. PERKINS & SON, Inc., - HOLYOKE, MASS.

The New Hees - Bright Ball Bearing Hanger

**HESS - BRIGHT
BALL BEARING**

HANGERS

**Save power plant and fuel
bills**

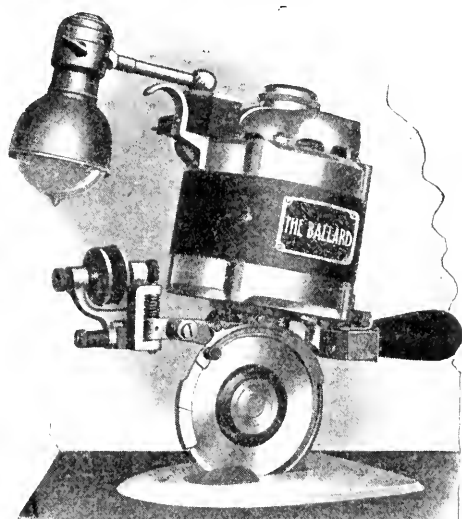

It is cheaper to install ball bearing hangers than to pay for the additional power plant necessary to overcome the friction of babbitted hangers.

In a new mill or extension Hess-Bright Hangers pay for themselves at the outset; and thereafter they earn continuing dividends on the coal and maintenance they save.

HESS - BRIGHT BALL BEARINGS

Truth Is Mighty and Will Prevail!

Note well the following undisputed facts and figures:

☐ The non-condensing steam Turbine consumes 40 pounds of steam per Indicated Horse Power per hour. The Internal Combustion engine is rendered impossible and obsolete by the present high price (\$2.50 per bbl.) and scarcity of crude petroleum. The average price

of Central Station electric current is 3 cents per kilowatt hour; under proper conditions with an isolated plant, we can produce it for one cent.

☐ Our 20th Century Heavy Duty Corliss Engine equipped with the "Franklin" (Patent) Horizontal Gravity Latch Releasing Valve Gear secures the maximum of power at the minimum of cost. Guaranteed Steam economies (under favorable conditions) 12½ lbs. for compound condensing engines. 21½ lbs. for simple non-condensing. Rotative speeds 150 to 200 revolutions per minute. Made in all types and sizes. Send for descriptive catalogue and be convinced.

ROCO COUNTERS REGISTERING YARDS and PICKS on a WHITIN LOOM

The yard counter is driven from the sand roll by two bevel gears—the pick counter is driven from the crank shaft and registers every thousand picks. The counters work independently, either one or both may be used.

These are samples of the innumerable applications of our counters. They are adaptable to all textile needs and are necessary where accuracy in counting and cost estimating is desirable.

We make the Bristol, Elm City and Roco Counters, in different styles, for use on looms, balling machines, twistors, dressers, folders, printing and rolling machines, tenter frames, warpers, slashers, etc.

Roll Washing and Bleaching Machine.

MACHINES
BUILT
BY

Sulphur Hosiery Dyeing Machine.

KLAUDER=WELDON DYEING MACHINE CO.

Huddersfield, England.

AMSTERDAM, N. Y.

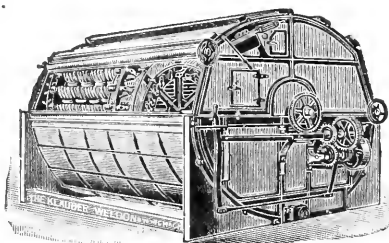

MACHINES FOR

DYEING—Worsted, Woolen, Cotton and Silk Skeins—Slubbing, Raw Cotton, Wool, Waste, Rags, Knit Cloth, Shirts, Drawers, Hosiery, Tapes, Hats, Caps, etc.

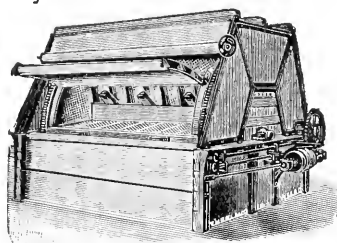

BLEACHING—Skeins, Raw Stock, Knit Cloth.

SCOURING—Woolen and Worsted Yarns.

SULPHUR COLORS—Skein, Raw Stock, Hosiery.

Skein and Slubbing Dyeing Machine
Built in sizes to dye 50 to 1000 lbs.
per batch.

Raw Wool and Cotton Dyeing Machine
Built in sizes to dye 400 to 1200 lbs.
per batch.

Brown Spin-Wright Cotton Co.

32 UNION SQUARE, NEW YORK, N. Y.

To Textile Users:

Spindles driven by the Brown patented herring-bone perforated steel band into small herring-bone gears on spindle base insures absolutely positive spin and twist. All frames are also geared from the drive shaft to the spindles—to the front rolls—to the travers, and builder motion, or to any mechanism used as a take-up, thus making it positive in all its running parts.

Our frame has been run under mill conditions for some time in a first-class cotton factory and proved very satisfactory.

A frame can be seen in full operation at 1502 Purchase Street, New Bedford, Mass.

For further particulars address BROWN SPIN-WRIGHT COTTON COMPANY, 32 Union Square, New York City, or 1502 Purchase Street, New Bedford, Mass.

WASTED OIL

SOON RUNS INTO DOLLARS

WHY NOT USE ARGUTO

OILLESS BEARINGS?

FIVE REASONS

Long Life
 Six to eight years' continuous running is not a bad record.
 That's One.

Permanent Lubrication
 Never have to be lubricated, and run as dry as a bone and clean as a whistle.
 That's Another.

Repairs Eliminated
 The center of trouble of every countershaft is the loose pulley or friction clutch.
 Another Yet.

Material Increase in Life of Belts
 They prolong the life of your belts from 40 to 50%. Mineral oils and animal belts are detrimental to economy.

And Yet Another

Good-bye to Friction
 And that's what the "Arguto" Bearings are for. "Mechanical Peacemakers"—nothing striking to look at, but only make a good showing in your repair account.

Loose Pulley Equipment

The Palmer Improved Adjustable Thread Guide

For Ring Spinning and Twisting

Clamp Plate

2,000,000
in operation

Patented in U. S., July 24, '06, Apr. 9, '07, June 4, '07, Apr. 7, '08, Apr. 21, '08; Austria, Dec. 1, '07; Canada, Sept. 26, '08, May 12, '08; England, July 24, '06, Aug. 29, '07; Belgium, July 24, '06, Nov. 14, '07, Dec. 19, '07, Dec. 28, '07; France, Oct. 2, '06, Dec. 14, '07; Italy, July 24, '06, Feb. 28, '08; Spain, Sept. 3, '06, April 8, '07, Nov. 27, '07, Feb. 23, '08, Feb. 22, '08; Switzerland, June 30, '07, Feb. 26, '08; Japan, Oct. 12, '06, Sept. 30, '07; India, Feb. 19, '07, Mar. 26, '07. Patents applied for in the United States, Germany, Russia and Poland.

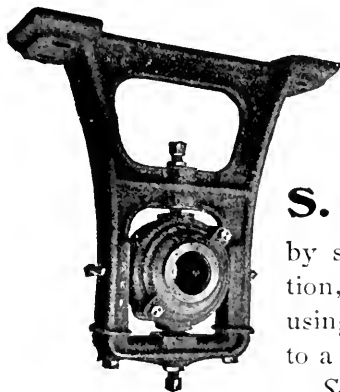

This guide supplies an accurate, rigid and permanent adjustment and is attached to the ordinary spinning frame clapper. It has more merits than any other adjustable guide and at a greatly reduced cost. Perfect adjustment saves broken ends, abnormal wear of the rings, and increases the production and quality. Will soon pay for itself.

POWER

More of It for Less Money

S. K. F. Ball Bearings

by substituting rolling for rubbing friction, eliminate power waste caused by using plain bearings. Friction reduced to a minimum.

Self-Alignment.—These bearings au-

tomatically take care of bending shafts and sagging of floors.

Infrequent Lubrication and Attention.—All that is necessary is to have them gone over once in three or four months. Here is a big saving not only in time and lubrication, but also in money.

Manual of Dyeing

(KNECHT, RAWSON AND LOEWENTHAL).

This is a new edition, complete in two volumes, of what is un-
questionably in every sense of the word the best book on dyeing ever
published in the English language. No proprietor of a dye house
and no dyer can afford to be without it. The work is divided into
eleven parts and an appendix, covering the textile fibres, materials
used in dyeing, coloring matters, machinery used in dyeing, analysis,
etc. 902 pages; 120 illustrations; cloth.

Price \$12.00, including express charges.

SENT FREE A COMPLETE CATALOG OF TEXTILE BOOKS

Our descriptive catalog contains a list of all the books in the English language on textile subjects that are in print and that are of present value, classified under the different subjects to which they pertain. This catalog should be in the possession of every mill man. It will be sent FREE upon application. New books on textile subjects are being published frequently. We can supply any textile or technical book, whether of our own publication or not, at lowest prices. We can also give information and prices of foreign textile publications, etc. We are headquarters for everything in the line of textile literature and information.

LORD & NAGLE CO., Boston, Mass.

The Number and the Kind of Mills

Reported in the OFFICIAL AMERICAN TEXTILE DIRECTORY,
Arranged by States

The number of mills in the "total" column is larger than the actual number of separate establishments reported, because where a mill comes under more than one classification, for example, Cotton and Woollen, or Knitting and Silk, etc., it is counted in each classification, which makes duplication in some cases, particularly in Pennsylvania.

| STATES | Cotton | Woollen and Worsted | Dyeing, Bleach- ing, Printing and Finishing | Knitting | Silk | Flax, Linen and Jute | Total |

REWARD

To the person who shall *first* inform us of any cotton, woolen, knitting, silk, flax or jute mill, print works, dyeing (except job dyeing), bleaching or finishing establishment in the United States or Canada* which was in operation on Feb. 1, 1914, and which is erroneously omitted from this Directory, we will pay \$1.00 on the following conditions:

Full and complete information concerning the mill must be sent. By that we mean the name of the company, where located, names of the officers, including superintendent, class of goods made, capacity in machinery, that is, number of spindles, cards, looms, etc., kind of power, whether a dyehouse or not, name of buyer and selling agents.

We will pay the same reward to the first person who informs us of any mill reported as a going concern, which was out of business Feb. 1, 1914.

In recognizing claims for reward, we can only consider them with reference to the circumstances on Feb. 1, 1914, as it is manifestly impossible to include or omit mills which may have started or stopped subsequent to date of compilation.

We especially invite the co-operation of traveling salesmen in the correction of any errors that they may discover.

No other Directory publishers have yet dared to offer rewards for the discovery of inaccuracies.

*The offer of reward does not apply to small custom carding mills with only one or two custom cards for country rolls, to knitting mills with less than four power machines, or to braiding or wire covering establishments.

Bleaching, Dyeing and Drying Machines for either the long or short chain system of warp dyeing.

Finishing Machinery for all kinds of narrow fabrics.

Mercerizing Machines for yarn or cloth.

Opaque Machines for book cloths and window shades.

Dyeing Machines for raw stock.

Carpet Yarn Sizing Machines.

Calendar and Mangle Rolls of all kinds

**Cotton, husk, paper, brass, iron and chilled iron rolls,
and our famous Combination Cotton-Husk Rolls.**

EXPLANATION OF MAPS AND GENERAL ARRANGEMENT

The Directory is illustrated by copyrighted maps of the principal manufacturing states east of the Mississippi River, and the Provinces of Quebec and Ontario, showing the location of the textile mill cities and towns. These maps are engraved especially for the OFFICIAL AMERICAN TEXTILE DIRECTORY, and are arranged with special reference to the convenience of those desiring to reach the textile establishments. The Southern, Western, and Central States are arranged in groups; most of the New England and Middle States are shown with separate maps for each State. Under each State heading at the top of right hand pages reference is made to the page of map for that State.

The State maps are divided into square sections, designated by letters and numbers. In the body of the Directory, after the name of the city or town, the square in which it is located on the map is designated thus, in the case of Passaic, N. J.—“Passaic, D-9,” meaning that Passaic will be found in the horizontal section D and the vertical section 9 of the New Jersey map.

Following the letters indicating the location of the town will be found abbreviations of the railroad connections, which will enable one to refer intelligently to any railway guide for his train connections. If the town is not on the railroad, the nearest railroad station is given and the distance from it. The population of the place follows the railroad abbreviations.

It should also be carefully noted that each square is a certain number of miles. Under the title of each map will be found the scale of miles to each square in that map. In this way distances can be very closely approximated, and railroad fares estimated on computation of about 2 cents per mile in the Eastern States, and 2½ to 3 cents in Southern and Central States for local travel.

The classification of the mill section of the Directory is first, alphabetically by States; second, alphabetically by towns and cities in each State; third, alphabetically by name of mill, under its proper post office address. In some instances the railroad and freight station is not the same as the post office address, and in these cases the proper railroad station is designated.

EXPLANATION OF ABBREVIATIONS.

Under each city or town are grouped *all* the textile mills in that place, without regard to kind of goods made. The kind of mill, i. e., whether cotton, woolen, etc., is shown by the bold face letter at the right.

In order that the general character of the mill may be ascertained without closely reading the data concerning it, a system of abbreviations has been employed as follows:—

| | | |
|-----------------------------|---------------------------------|--------------------------------------|
| C means cotton mill. | W means woolen mill. | S means silk mill. |
| J means jute mill. | K means knitting mill. | D means dyeing establishment. |
| Bl means bleachery. | F means finishing works. | Pr means print works. |
| | Fl means flax mill. | |

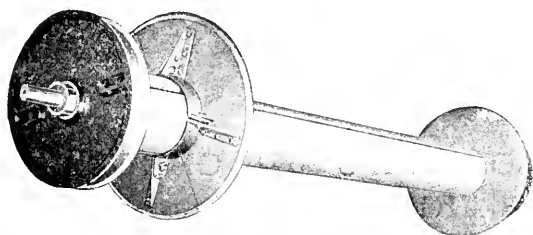

POWER. The kind of power is designated—steam, water or electric.

DYE. If the mill has dyeing facilities, the word “dye” is used.

S. AGTS. means selling agents. The other abbreviations will be easily understood.

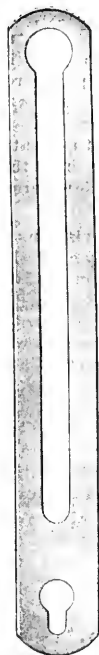

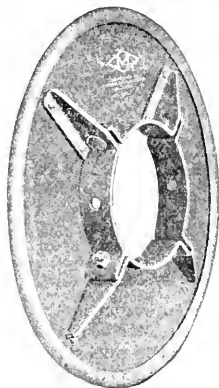

BUYER. In most instances the name of the man who does the buying is given for the larger mills. In smaller mills, or those operated by individuals, the principals usually buy.

POP. Population.

Who Uses Revolvators?

Revolvators or portable tiering machines are used in hundreds of representative plants all over the country for stacking rolls and reams of paper, bales, boxes, etc., in warehouses or for loading them into cars. Here are a few concerns who use them, some having as many as a half-dozen :

| | |
|------------------------------------|----------------------------------|
| Standard Oil Co. | Westinghouse Electric Co. |
| International Harvester Co. | U. S. Envelope Co. |
| American Tobacco Co. | American Radiator Co. |
| National Biscuit Co. | American Woolen Co. |
| Eastman Kodak Co. | U. S. Navy Yards |
| Singer Mfg. Co. | Am. Writing Paper Co. |
| | General Electric Co. |

Do you believe any of the above concerns would buy Revolvators if they did not find them great money and time savers ?

Write today for catalog T. I. and find out why so many representative firms use Revolvators

LOGWOOD

The STANDARD BLACK for WOOL
The ECONOMICAL BLACK for COTTON

LOGWOOD BLACKS can be dyed absolutely at the lowest cost of any possible black.

LOGWOOD BLACKS when properly dyed are handsome and permanent; they do not redden with age but retain their original rich tone and beauty of shade.

LOGWOOD BLACKS add weight; improve the feel of goods and give a depth of shade which can be produced in no other way.

LOGWOOD BLACKS would solve many of your problems.

WRITE US.

DRAPER COMPANY, Hopedale, Mass.

How Much

How much is it worth to you to have your knit goods Bleach Faster, Come Out Softer, More Lofty and Retain Their Whiteness?

This is just what they do if

Wyandotte Textile Soda

is used in the bleach.

All these advantages, from using Wyandotte Textile Soda, will cost no more than less advantageous results with other materials.

Other uses and further information with full directions gladly given. Also ask us about Wyandotte Concentrated Ash.

Order from your Supply House.

The J. B. Ford Co., Sole Mfrs., Wyandotte, Mich.

This Soda has been awarded the highest prize
wherever exhibited.

ALPHABETICAL INDEX

—TO—

The Textile Establishments OF THE UNITED STATES.

The following index is an alphabetical arrangement of all the textile establishments in the United States. Following the name and address of the establishment, the character of the mill is designated by letters; thus,

(C) means a cotton mill (K) means a knitting mill (Bl) means a bleachery
(W) means a woolen mill (Fl) means a flax mill (F) means finishing establishment
(S) means a silk mill (D) means a dye works (J) means a jute mill

The number which follows indicates the page upon which the full particulars of the mill will be found.

It frequently happens that an establishment is listed under two names; viz., proprietor's or company's name and also the name of the mill, as, for example, Wm. F. Read & Sons Co., Victoria Mill, Philadelphia, Pa. In the alphabetical index this is listed as follows: Wm. F. Read & Sons Co., Philadelphia, Pa., also Victoria Mill (Wm. F. Read & Sons Co.), the page number being given in both instances, but in the case of the second name the address is not given, so that if this index is used for addressing purposes, no duplicates will be made if directed only to the names which have addresses.

As the body of the Directory is arranged alphabetically by states, towns and establishments, it is, therefore, self-indexing, and any mill can readily be found through one or the other system of classification, viz., by its name in the alphabetical index or by its location in the body of the book, where full particulars about each mill will be found.

What are Your Silk-Yarn Needs?

The continued use by the largest and most successful manufacturers of silk and silk-mixture goods, over a long term of years, is our best advertisement of the superiority of

CHENEY SILK YARNS

This patronage has been won through our ability to maintain the high standard set for them. Manufacturers know that our yarns can be depended upon for quality, and experience has taught them that they are best suited for their particular needs.

If you are a user of silk yarns, in any form, we should be glad of the opportunity to submit samples and make quotations on your requirements. We have the experience to enable us to give you any quality desired for any need, and we have the plant (the largest in the United States) to supply it in any quantity.

Silk Yarns for insulation purposes.

Cheney Silks are of superior quality, and include practically every kind of goods made of silk whether for dresses, millinery, decoration or upholstery, the haberdasher or manufacturer, man or woman.

CHENEY BROTHERS

Silk Manufacturers

4th Avenue and 18th Street, New York

The Yarn Trade Index

In this department will be found classified lists of manufacturers of different kinds of yarn, who sell their product. So far as possible the sizes of yarn which are made are given and the form in which the yarn is put up, together with the selling agents of the mills. Dealers and commission merchants are not included in this list. There is a separate list following the list of yarn manufacturers in which are included such firms.

The publishers will be pleased to receive notice of any corrections that should be made.

If any kinds of yarn are wanted which are not found in these classified lists, the publishers can probably supply the addresses of manufacturers or dealers from whom they can be obtained.

COTTON KNITTING YARNS.

THE ONTARIO DYEING CO., INC.

Ontario and D Sts., Philadelphia, Pa.

**MERCERIZERS
CONERS and WINDERS
DYERS of COTTON
SKEINS and WARPS**

**FINE YARNS and CROSS
DYE
A Specialty**

Have You Ever Stopped to Consider What Tangles and Tears Your Skein Yarn;
what causes so much waste; why there is so much trouble in your winding, and so many knots in your yarn? Have you ever examined your dye-sticks, dry poles and your trucks, to see if your sticks are smooth, and that your trucks have no places for yarn to catch on and tear the skein? It would pay you to go over these things once in a while. This would save burling and mending, and would help your production in the loom.

I am now supplying over 700 mills and dye houses in U. S. and Canada with **DYE STICKS**, drying and sulphur house poles, wringing sticks, trucks for dry rooms, dye houses and mill purposes. My trucks have self-oiling wheels. They are smooth. Yarn will not catch on them. They are properly balanced. I build any truck required.

Let me know what you need. Give me a chance to demonstrate my goods.

A Complete Catalog of all

Textile Books

OUR descriptive catalog contains a list of all the books in the English language on textile subjects that are in print and that are of present value, classified under the different subjects to which they pertain. This catalog should be in the possession of every mill man. It will be sent free upon application. New books on textile subjects are being published frequently. We can supply any textile or technical book, whether of our own publication or not, at lowest prices. We can also give information and prices of foreign textile publications, etc. We are headquarters for everything in the line of textile literature and information.

The Chemistry and PRACTICE OF SIZING

(Ninth Edition)

BY BEAN AND SCARISBRICK.

NEARLY all cotton manufacturers would be astonished if they could see the economy that is possible in the sizing of their yarns. Some mills are paying more attention to their sizing as a means of decreasing cost at the slasher, increasing output in the weave room and improving the quality of work.

Recognizing the importance of the subject the *Textile World Record* has borne the expense of publishing an American edition of **THE CHEMISTRY AND PRACTICE OF SIZING** and now offers to American cotton manufacturers the best ideas of the foremost English textile chemist collaborating with a practical sizer of large experience, written in a practical manner. Their combined work is recognized as standard in all countries where cotton manufacturing is carried on.

THE CHEMISTRY AND PRACTICE OF SIZING is a large substantial book of 650 pages, printed on fine coated paper, with numerous illustrations and plates, and bound in cloth. All the mechanical features are of high quality in keeping with a work of its importance.

We do not hesitate in saying that this is the most valuable work of the kind that ever has been offered to American cotton manufacturers. It offers you the best ideas of men with every resource in the form of opportunities, training, experience and personal fitness for the task of improving your sizing.

The price is \$8.00, which includes payment of express charges to your address.

The Cotton Manual

BY J. T. BROADBENT

This little Manual was prepared with the idea of telling briefly, but comprehensively, the things about the cotton fibre, its cultivation, and the ginning and marketing of the cotton crop, the different kinds of cotton, and other matters bearing on raw cotton, such as the average student or person connected with cotton manufacturing or the sale of cotton goods, wants to know.

There are excellent chapters on cotton baling, describing the different kinds of bales and baling processes, and on the opening and mixing of cotton in the mill, with account of different machines employed, and improved methods of mixing.

The book contains about 100 pages, with 20 illustrations, and should be in the possession of every person having to do with cotton in any state, from the seed to the retail purchaser.

Price, 75 Cents

PUBLISHED BY

LORD & NAGLE COMPANY

MILLS CLASSIFIED ACCORDING TO PRODUCT

Yarn mills will be found in the Yarn Trade Index, beginning on page 419.

Knitting mills are not included here, as separate classified lists in great detail are contained in the American Directory of the Knitting Trade; price \$1.50.

Full particulars and data about mills in the following list will be found in the Mill Section of the Directory, where they are arranged according to location. Quick reference to each mill may be had from the Alphabetical Index to Mills.

MANUFACTURERS OF COTTON GOODS.

The classifications of manufacturers according to product are arranged alphabetically under the following headings. Some fabrics are not listed separately, to avoid duplication, but the headings under which they will be found are indicated in this index, as for instance, "Canton Flannel, see Flannel, Cotton."

Absorbent Cotton.

MANUFACTURERS OF SILK GOODS.

The classifications of manufacturers according to product are arranged alphabetically under the following headings. Some kinds of goods are not listed separately, to avoid duplication, but the headings under which they will be found are indicated in this index, as for instance, "Taffeta, see Broad Silks."

Artificial Silk.
Braids, see Trimmings.
Broad Silks.
Chiffons.
Dress Trimmings, see Trimmings.
Edgings, see Trimmings.
Foulards, see Broad Silks.
Fringes.
Gimps, see Fringes.
Glove Fabrics, Silk.
Grenadines, see Broad Silks.
Handkerchiefs, Silk.
Hat Bands.
Laces, Edgings, etc., see Trimmings.
Lining Silks.

Millinery Trimmings, see Trimmings.
Mulls, see Chiffons.
Peau de Soie, see Broad Silks.
Plushes and Velvets, Silk.
Portieres, see Upholstery Goods.
Ribbons, Silk.
Taffetas, see Broad Silks.
Tie Silks.
Trimmings, Silk.
Umbrella Silks.
Upholstery Goods, Silk.
Vellings, see Chiffons.
Velours, see Plushes and Velvets.
Velvets, see Plushes and Velvets.
Woven Silk Labels.

ARTIFICIAL SILK.

Art. Silk Yarn Co., Inc., Kingston, N. Y.
American Viscose Co., Marcus Hook, Pa.

PROVIDENCE, R. I.

It is Universally Acknowledged in the Textile Mill
Trade that the Name

FELTON

as applied to

MILL BRUSHES

is a reliable guarantee of superiority because:

As the largest manufacturers of mill and factory brushes, we import foreign bristles direct, and using more than any other firm we can get a better selection and price.

As we employ the best obtainable brush-making experts we produce brushes of superior quality.

We make all kinds of brushes for the mill trade—and sell them on the basis of—"Many sales at small profits." Send for catalog.

The E. Z. Unroller

(PATENTED)

Is the Percher's Assistant

This patented device for use under spreaders makes it easy for the percher to *automatically* unroll the goods as he pulls them over the spreader for examination. No other assistance is required.

Write for illustrations, price and description of how to use it. Its a simple time and labor economizer.

**Sarco Temperature Regulator**

FOR TANK, DYE BATH and ROOM REGULATION

*No Compressed Air No Flat Diaphragms No Electricity
No Gas Expansion No Metal Expansion*

This Temperature Regulator can be used for the regulation of temperature in dye tubs, to maintain them at the proper boiling temperature.

The Sarco is constructed on a new principle and supplies its own motive power. It is cheaper to install and costs nothing to operate.

BETTER THAN MILL CONSTRUCTION CHEAPER THAN ALL CONCRETE

THE WILSON SYSTEM

(Patented August 1, 1911)

Is a new use of established principles of building construction. It has been used with perfect success in the building of

Mills, Factories, Shops, Storehouses and a variety of Other Buildings

All the strength, durability and solidity of All Concrete, without hard, stony, dusty floors.

And It Costs Less

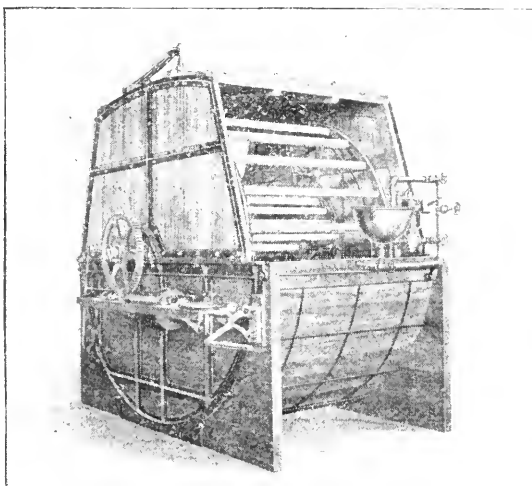

Stronger, safer from fire, longer lived than "mill construction." And it costs about the same.
